3rd June 2020

Dear Mr Bamford,

On behalf of Founders4Schools and the children and young people that we support, I would like to send you a heartfelt thank you for your donation of £5,000. We are so grateful for your support which will enable us to reach more girls through the [Maths4Girls](#) program.

Maths4Girls aims to inspire and build the confidence of girls in maths and encourage them to continue with maths beyond GCSEs. In turn, we hope that this will help improve financial literacy of girls and women and eventually close the gender gap in industries such as finance, technology and the many other industries that require maths.

We have recently finished the pilot of the Maths4Girls project in London and have so far attracted over 250 volunteers and held over 40 Maths4Girls events in schools, inspiring girls to explore careers in maths-related industries. With donations like yours, we are now planning on rolling out the Maths4Girls project nationwide and we are very grateful for your support. In response to the schools and college closures during the Covid-19 crisis, we have moved all of our services online to interactive webinars and are continuing to work with and support teachers to help them inspire their students during this time. We look forward to keeping you up to date with the project as we progress.

With huge thanks again for your invaluable support and best wishes,

Nathalie Scott  
**Director of Fundraising**

*The Maths4Girls event was very helpful and important. It made me think that I can go beyond and further my achievements.*  
**15 year old Student from Elutec schools**

*"I found the Maths4Girls programme really rewarding and a great way to encourage more girls to study maths for longer".*  
**Volunteer, Director at Varde Partners**

*"Maths4Girls is an incredible project where brilliant people with incredible stories, come to the class and share with students their insights in technical careers. This project boosts the confidence for every young woman who wants to follow a STEM career"* **Volunteer, Cyber Security, Asos**
